S/0791/18/FL - Land between Cody Road and railway, north of Waterbeach, Cambs

25 Jubilee Close
Waterbeach
Cambs
CB25 9NY

Comments

I object to this planning application as the infrastructure to make this work has not been properly looked at, the present station only needs the platforms extending which Network Rail have agreed to do within the next twelve months. The proposed new station would initially require traffic to access it via Bannold Road and Bannold Drove which is totally unsuitable for the amount of traffic the station would attract. Parking will also be a problem as there will always be those who will park anywhere they can without paying so there will be cars parked in all the approach roads causing major obstructions. The police will never check out parking issues because they do not do it now as they are too busy "catching criminals". It will also create more traffic running through the village from villages south of Waterbeach to get the trains, at the moment they come to the village but where the station is located they do not enter the village but park in the lay-bys near the boat club and opposite the Bridge Hotel. This is in general not a planning application that will benefit the village and should be refused.
