S/0791/18/FL - Land between Cody Road and railway, north of Waterbeach, Cambs

21 High Street
Waterbeach
CB25 9JU

Comments

Cody Road is unsuitable as a route for construction traffic for the proposed new station site. It is relatively narrow and recent developments along it mean that there are likely to be parked cars causing additional restrictions. On a development of this size it should be incumbent on the developers to work together to allow construction traffic access more directly from the A10 via ministry of development land and thereby avoiding dangerous and detrimental volumes of construction traffic on unsuitable minor village roads.
