I am concerned that there does not seem to be any consideration towards the road infrastructure in the vicinity of this development. The impact of the development will increase the traffic using Yarrow Road and Airport Way. Therefore without some consideration being given to the road junctions onto these roads, then the road users, other than from the development, will find it difficult to gain access and this will cause long traffic queues, particularly in Teversham which will increase the pollution level and affect pedestrians, predominantly children in the vicinity of the Primary School.
